Introduction

With the Silvercrest pasta machine you can quickly and reliably produce a wide variety of pasta shapes.

The most common pasta is made from wheat flour or durum wheat and water, with egg or without egg. However, you can also replace the water with juices or add herbs to the dough to give the pasta a special flavour.

Tomato juice, spinach juice, carrot juice or herbs such as tarragon, finely chopped parsley or basil are ideal for this. You can also add spices such as pepper or salt.

Note: You can vary all the recipes in many ways and change them to suit your own taste! Give your creativity free rein! The illustrations in this recipe booklet are examples and may differ from your result depending on the characteristics of the food.

Melt the butter in the pan and fry the drained penne in it until lightly browned. Add 3 tbsp. sugar and mix this in.

Whisk the eggs with the cream and the remaining sugar.

Add the egg and cream mixture to the penne and turn down the heat so that the egg mixture sets a little and cooks through.

Sprinkle with a little cinnamon to serve.

INGREDIENTS

Approx. 320 g penne
50 g raisins
4 tbsp. hazelnuts
(chopped)
500 ml milk
2-3 pinches of
cinnamon powder
3 tbsp. sugar
100 ml cream
1 sachet of vanilla sugar
(8 g)
2 firm apples
(e.g. Jonagold)
Salt

Sweet milk penne with apples

Toast the chopped hazelnuts in a high-sided pan until lightly brown, remove and set aside.

Add the homemade penne, sultanas, milk, 200 ml cold water, a pinch of salt, cinnamon, vanilla sugar and sugar to the pan.

Cover and bring to the boil on a high heat, taking care not to let the mixture boil over. Then simmer uncovered on a medium heat for about 5 minutes. Stir constantly so that nothing sticks to the bottom of the pan.

Wash the apples, remove the core and cut the apples into approx. 1-2 cm cubes.

Add the apple cubes to the noodles and simmer for about 5 minutes, stirring so that the liquid reduces slightly.

Add the cream and bring everything to the boil again.

Sprinkle with the toasted hazelnuts before serving.

INGREDIENTS

2 shallots
2 garlic cloves
4 tbsp. olive oil
150 g smoked bacon,
slightly streaky
Approx. 150 ml meat
stock
1-2 tbsp. lemon juice
Freshly ground pepper
Freshly shaved
parmesan, for sprinkling

Penne with kale
and bacon

Wash and clean the kale and blanch in salted water for approx. 5 minutes. Then rinse in cold water, drain and cut into small pieces.

Peel the shallots and garlic, chop both finely and sauté in hot olive oil until translucent.

Cut the bacon into strips and fry briefly.

Add the kale and deglaze with a little stock. Stew for about 10 minutes. Add more stock as needed, but the liquid should have almost completely evaporated again by the end of cooking.

Cook the penne in salted water until al dente.

Drain the penne and mix into the cabbage.

Season with salt, lemon juice and pepper and serve sprinkled with Parmesan.

Wholemeal penne with sunflower pesto

Cook the homemade wholemeal pasta (from 250 g wholemeal flour and liquid) in salted water until it is al dente.

Wash and clean the broccoli, divide into larger florets and sauté briefly in 1 tbsp. oil in a hot pan.

Season with salt and pepper and deglaze with the wine. Cover and steam for 2–3 minutes.

Wash, clean and halve the tomatoes. Add to the broccoli and cook for another 2 minutes.

Toast the sunflower seeds in another pan until golden brown. Remove from the heat and leave to cool.

Peel and roughly chop the garlic. Rinse the basil, shake it dry and pluck off the leaves. Finely crush together with the garlic in a mortar.

Add the sunflower seeds and chop coarsely.

Stir in the Parmesan and the remaining oil and season with salt and pepper.

Drain the pasta and toss into the vegetables with a little of the cooking water and the pesto as required.

Season to taste and serve.
